# ANNUAL MEETING,

Wednesday, 14th February, 1934.

---

The 108th Annual General Meeting of the Royal Bath Hospital and Rawson Convalescent Home was held on Wednesday, 14th February, 1934.

The Rt. Hon. Viscount Mountgarret, presided. Amongst those present were Matthew Stephenson, Esq., J.P. (Vice-President), Sir L. G. Dunbar, Sir James Baillie, O.B.E., LL.D. (Vice-Chancellor, Leeds University), Col. W. F. Collins, D.S.O., Lt. Col. A. Kirk, V.D., J.P., C. A. Rhodes, Esq., J.P., Stanley Barnes, Esq., R. A. Breare, Esq., C. E. Carter, Esq., J.P., H. Chapman, Esq., J.P., J. A. Eddison, Esq., W. H. Freeman, Esq., R. E. Jones, Esq., Mr. and Mrs. W. Arthur Taylor, W. Townend, Esq., Dr. A. W. Hinsley Walker, J.P., Dr. G. L. Kerr Pringle, M.C., Dr. G. Holmes, Dr. W. Yeoman, Dr. W. S. Kidd, Dr. R. Nimmo Watson, Dr. J. L. Wesley-Smith, Dr. Dorothy Potter, Dr. Muriel Keyes, Dr. C. G. Hitchcock, Dr. A. K. Boyle, A. Woodmansey, Esq., M.Sc., Mr. Newton (Newcastle), etc.

Apologies for absence were received from Major J. W. Dent, J.P. (Vice-President), The Duchess of Portland, Ella Lady Peel, Sir J. Eaglesome, K.C.M.G., W. L. Kirkby, Esq., Dr. L. J. Hobson and Dr. A. C. Sharp.

LORD MOUNTGARRET, moving the adoption of the Reports and Accounts, said that unfortunately there had been a small decrease in the subscriptions and, in the circumstances, the Committee of Management deserve congratulations for being able to show a credit balance. It was not, however sufficient for Income to balance expenditure. They must have sufficient over to meet demands for improvements and for extending the work. Over £1,400 had been contributed to the £2,000 appeal for the establishment of an X-Ray department. Another improvement needed was a duplicate Bath House which would cost about £8,000 to build and about £400 a year to maintain. Unless the Hospital was to go back it must continue to advance and keep abreast of the demands made upon it.

MR. STANLEY BARNES (Hon. Treasurer), seconding the adoption of the Reports and Accounts, said that both the Hospital and the Home had credit balances of about £100 each,

which, if small, was a very satisfactory state of affairs, all things being considered. He hoped that as economic conditions improved the Approved Societies would see their way to resuming their quarterly contributions. These had decreased by about £1,000 during the past few years. He appealed for further contributions to the X-Ray Fund and stated that small donations would be gratefully accepted.

The Reports and Accounts were then adopted.

MR. M. STEPHENSON, J.P., moved a vote of thanks to the Chairman and Members of the Committee of Management, and proposed the re-election of the following members, due to retire by rotation, Sir John Eaglesome, K.C.M.G., Messrs. H. Chapman, J.P. and W. Townend with the addition of Mr. C. A. Laurence vice Col. A. T. Walker resigned, and that the nominees of the Hon. Medical Staff—Dr. G. Holmes, Dr. R. Nimmo Watson, Dr. J. L. Wesley-Smith and Dr. J. A. Thomson be appointed.

Mr. Stephenson added that the Bath Hospital had always been fortunate in its Committees. They had a very good and hard working Committee at the present time and, assisted by an able chairman, they had accomplished good work during the past year.

COL. W. F. COLLINS, D.S.O., who seconded, said he spoke from close personal experience. He had himself served as a member of the Committee but finding that they were able to manage without him, he had taken up the less arduous duties of a Trustee.

The motion was carried.

MR. C. A. RHODES, Chairman of the Committee, replying, paid a high tribute to Miss Cort, the late Matron, who had resigned after serving the Hospital with extraordinary efficiency for eighteen years.

He said the Hospital was threatened with a serious increase in Rating Assessments. He recalled that the Hospital had at one time been rated at the nominal figure of £40. This was later increased to £150, which appeared to have been based on an estimate of £1 per bed. They had accepted this as reasonable, but now the figure had been doubled. In their view no Hospital like theirs ought to be assessed at all. There was no profit making

and the only principle of rating known to the law was based on what a hypothetical tenant would pay. They had appealed to the Assessment Committee and might again have to fight, because there was no guarantee that the Assessment would not be doubled again next time. The principle of the Law would have to be thoroughly fought out.

Mr. Rhodes then moved certain alterations to the Rules governing the admittance of and charges to patients, the object of which was to bring the Hospital closer into line with the Spa Hospitals at Bath and Buxton.

MR. J. A. EDDISON seconded, and the motion was carried.

MR. W. H. FREEMAN moved a vote of thanks to Mr. Stanley Barnes for his services as Hon. Treasurer and his re-appointment for the ensuing year.

SIR L. G. DUNBAR seconded, the motion was carried and Mr. Barnes suitably replied.

MR. C. E. CARTER, in proposing the vote of thanks to the Honorary Medical Staff and their re-election for the ensuing year, stressed the fact that this was no mere formality. They deeply appreciated the work the Staff had done and the time they had given up on behalf of the Hospital. With regard to the Research Scheme into the causes and cure of Rheumatism in conjunction with Leeds University they had not yet secured a satisfactory research worker. They could rely on the fact, that as soon as they got a competent man the work would begin.

SIR JAMES BAILLIE (Vice-Chancellor, Leeds University), who seconded, said that the money for carrying out the work had been contributed and the appointment of the investigator would be considered next week. Rheumatism was an enormously important subject, and investigation leading to the solution of some of the problems connected with it would be of inestimable value. It was not easy to find trained men, who were willing to sacrifice the possibility of a fairly lucrative career and devote their energies to inconspicuous work in a Laboratory without the prospect of any pecuniary reward. He promised the assistance and resources of the Scientific Department of Leeds University in carrying on the work.

The motion was carried.

DR. G. HOLMES, in replying emphasised the fact that it was essential they should have a whole time research worker.

MR. NEWTON (Newcastle) proposed, and DR. A. W. HINSLEY WALKER seconded, the re-election of the Auditors, Messrs. Lowrey, Weston & Whalley.

MR. C. A. RHODES, moving a cordial vote of thanks to Lord Mountgarret for the able manner in which he had presided over the meeting, referred to the close interest his family had taken in the fortunes of the Institutions. It was his first visit to them that day and he hoped it would not be his last.

DR. G. L. KERR PRINGLE, seconded, and the proposition was heartily carried.

LORD MOUNTGARRET briefly replied, and afterwards inspected the new X-Ray Department.

# Report of the Committee of Management.

*To The Right Honourable The Earl of Harewood, K.G., G.C.V.O.,  
D.S.O., and Subscribers of the Royal Bath Hospital  
and Rawson Convalescent Home, Harrogate.*

The Committee of Management has pleasure in submitting its 108th Annual Report and Statements of Accounts for the year ended 31st December, 1933.

For purposes of comparison with 1932 the figures relating to admissions and re-admissions are now set out in tabular form :—

	1932.	1933.

Re-admissions :

Women	155	199	+ 44
	— 340	— 365	

Apart from financial considerations, the year under review has not been without its problems and difficulties. In the early months, Influenza was prevalent among both the Nursing and Domestic Staffs, but it was found possible, by the goodwill of all concerned, to keep the work going with depleted forces and fortunately all the patients escaped the epidemic.

In July, when every Department was working at full pressure, your Committee received with great regret the resignation of the Matron, Miss F. M. Cort. This was necessitated

by a serious breakdown in health which had hitherto been quite unsuspected, but the opinion of the Specialist consulted admitted of no compromise.

For eighteen years Miss Cort had unsparingly devoted herself to the work of the Hospital and frequent testimony, by patients and others, to the atmosphere prevailing throughout the Institutions was a convincing tribute to her administrative ability and her personal interest in the welfare of all who came under her care. During the War years she had filled a difficult position with conspicuous tact and success; she had been of great assistance in the return to civil conditions after the Hospital had been given up by the military authorities and had played an important part in promoting the success of many subsequent developments and improvements. Your Committee desires to take this opportunity of expressing its great appreciation of Miss Cort's long and valued services to the Hospital and its sense of obligation for the unselfish work she did on its behalf. They sincerely wish for her restoration to health and deeply regret the causes which have compelled her retirement.

As her successor your Committee has appointed Miss M. H. Roberts, late Matron of the War Memorial Hospital, Andover, Hants. Miss Roberts was selected from a large number of applicants and has had considerable administrative experience in hospitals in both the North and South of England.

The difficult period intervening was successfully surmounted and, in this connection, your Committee desires to commend the loyal co-operation of all the members of the Staff, who, without exception, rose to the needs of the situation. Especially are their thanks due to Miss Mossman for her kindness in taking over, at no little personal inconvenience, the direction of affairs and for the capability with which she discharged the duties of temporary matron. Her wide experience and sound judgment proved a great asset and her task was greatly facilitated by the confidence and esteem she inspired in all with whom she had to deal.

Representatives of the Hospital, including the Chairman (Mr. C. A. Rhodes) and the Senior Hon. Physician (Dr. Geoffrey Holmes), attended an informal conference of the three Spa Hospitals of Bath, Buxton, and Harrogate, which was held at Buxton in May. This was later followed by a meeting at Bath

of the Secretaries of the three Hospitals. The exchange of views, with the purpose of formulating a policy based upon community of interests, was both instructive and helpful and is a happy augury for further united action in the future. It may indeed be not too fanciful to suggest that, from these modest beginnings, a Federation of Spa Hospitals may some day come into being, which might exert a powerful influence in promoting and protecting their joint interests without in any way impairing their distinctive characteristics.

Later in the year representatives of the three Hospitals met a representative of the Approved Societies at Derby. It was then decided to make a joint representation to the Ministry of Health asking for official recognition of the Spa Hospitals as centres for treatment of Rheumatic diseases. At the same time a basic charge of 5s. per day, to include both board and treatment, was agreed upon. These proposals were subsequently brought before the Annual Conference of Approved Societies held at Llandudno and were accepted.

In March and in December parties of medical students from the Universities of Manchester and Leeds respectively visited the Hospital, when Dr. Holmes addressed them on Spa treatment, and a film, illustrating the various types of Harrogate treatment, was shown. The object of such visits is not only to show medical students something of the technique of balneology, but also to give them guidance as to the selection of cases likely to derive benefit from treatment in the Spas and Spa Hospitals.

That the Hospital suffered damage to the extent of only one length of spouting and three panes of broken glass as the result of the exceptionally heavy snow-fall in February is evidence of the high state of repair in which the buildings have been maintained. During the past year this policy has been continued. The windows throughout have been repointed with mastic (£72) and the exterior of all the buildings has been painted (£155).

The need for providing accommodation for an X-Ray Department has necessitated some internal re-arrangement. New quarters have had to be found for the Dispensary and the Matron's Stores. This work has been carried out at little expense and in effect it has actually improved the interior working of the Hospital.

In the Autumn your Committee—as was foreshadowed in their last Report—issued an appeal for £2,000 for the provision of an X-Ray Department. The response, from a limited number of donors, has been gratifying, having reached £1,100, headed by a munificent gift of £250 from Lord Harewood. The full list of donors, to whom your Committee takes this opportunity of conveying its sincere and deeply grateful thanks for their help, will be found on pages 75-77. Thanks are also due to the Editor of the “Harrogate Advertiser” for the prominence he has given to the Appeal in his columns week by week; his kindness in so doing has been directly responsible for more than one donation. The fund is still open and it is hoped that further gifts will be forthcoming to complete the sum required.

The records and statistics relating to the nature and volume of the work done throughout the year again show a marked general increase, under almost every head, in the various departments. Although the number of cases admitted necessarily shows practically no variation from that of the previous year, the average length of stay per patient rose from 22.9 to 23.4—an increase of just half a day. An additional Diathermy machine (£85) has been installed in the Electrical Department and facilities for extending the Vichy Douche are urgently needed. Further proof of the increasing demand upon the Hospital’s resources is given by the fact that during the Summer the Waiting List reached the unprecedented figure of 367. This fact lends additional emphasis to the frequently repeated request of your Committee that patients should send in their applications for admission as early as possible, since delay is inevitable although every effort is made to fill vacancies as quickly as circumstances allow. In the early part of the year cases can be admitted without having to wait for a considerable time.

Thanks largely to the untiring efforts of Mr. C. E. Carter the amount required to launch the scheme for investigation into the causes of Rheumatism—£1,000 for a period of seven years—has now been obtained. The appointment of a qualified worker is in the hands of a special Committee, including representatives of Leeds University, and it is hoped that a beginning will shortly be made.

#### **FINANCE.**

Although, as will be seen from a study of the Accounts, the amounts received from subscriptions and other sources

show a decline from the figures of the previous year, your Committee desires first of all to convey its cordial thanks to all those, who have, in various ways, continued, in these difficult times, to support the work of the Hospital and to urge them most earnestly by their liberality to enable them to carry on and even further to develop its work, since the field to be covered is practically illimitable.

The reduction of interest on War Loan to  $3\frac{1}{2}\%$ , with a consequent loss of £145 per annum, coupled with the fact that all the large Approved Societies—with one exception—have now wholly discontinued their quarterly grants under the Additional Benefits Scheme, constitutes a very serious loss of income from these two sources alone. Your Committee has therefore decided that the time has now come when it is not unreasonable to expect that a somewhat larger contribution towards the cost of the patient to the Hospital should be made. The endowments have of late been practically stationary—during 1932 and 1933 the capital additions amounted to only £167 10s.—so that the income from this source, upon which mainly falls the burden of making good the difference, is no longer equal to the demands made upon it. In the hope of remedying this, proposals are to be brought before the Annual General Meeting, which, it is hoped, will then be adopted.

Moreover, death is frequently removing some of our most generous supporters and new ones are not coming forward in sufficient numbers to replace them, and, at the present time, the Hospital is threatened with a serious increase in its assessment for rating purposes. It will thus be seen that the future is by no means free from anxiety. Every care and effort is made to secure economy without impairing efficiency, but the growth of the work in various directions inevitably involves additional expenditure and, unless the Hospital is to go back, it must continue to go forward and keep abreast of the demands made upon it; a static condition is alike unthinkable and impracticable.

The items of expenditure for 1933 have been re-arranged and are now shown in greater detail under their respective heads, and, although this departure makes comparison with the figures for 1932 temporarily misleading and obscure, it should prove helpful and enlightening in future years. The chief alteration is that the old "omnibus" item of Salaries and Wages is now split up and allocated to the appropriate departments. This will greatly facilitate comparison with the sister institutions of Bath and Buxton.

The statistical table (B) Annual Expenditure therefore appears alone this year, since comparison with 1932 is impossible in view of the regrouping which has been made. The chief item of interest is that the cost per patient per week has increased\* by 5d.—from £1 19s. 1d. to £1 19s. 6d. This sum exceeds by 8/- the amount received so that the Hospital had to find, under the conditions prevailing last year, no less a sum than £1 12s. in respect of every patient who stayed for a month, and, in many cases as much as £3 14s. That the Hospital has managed to do this and yet to show a balance on the credit side of nearly £200 says much for its strength, but, as has been indicated above, this heavy burden cannot be carried indefinitely without inevitable overstrain. It is with a view to avoiding this that your Committee has devised a more equitable rate of subscription to apply particularly to those who are not regular supporters of the Hospital.

### LEGACIES, &c.

The only legacy received during the year was £100 from the Executors of the late Mrs. A. A. Metcalfe, of Knaresborough. This has been placed to the credit of the Hospital Endowment Account in accordance with the usual practice.

## Report of the Hon. Medical Staff.

---

The outstanding event of the past year has been the installation of the X-Ray apparatus. The Medical Staff wish to place on record their gratitude to Dr. Hitchcock and Dr. Thomson for carrying on the work of their department under conditions which must have put them to great personal inconvenience, and it is a source of much gratification that the Hospital now possesses a thoroughly up-to-date X-Ray department within the building. Our thanks go also to those generous supporters whose donations have made possible the purchase of this apparatus.

Until recent years the Rawson Convalescent Home was occupied by convalescent patients requiring comparatively little treatment. Latterly with a gradually increasing waiting list of rheumatic cases the Home, as well as the Hospital, has been mainly occupied by patients of this class whose treatment has increased the work of the bath house by nearly 40%. We have only one bath house for male and female patients and sooner or later it will be necessary to build a duplicate bath house. Until this is done the present working arrangement of the baths being used for men in the mornings and women in the afternoons, or vice versa, must of necessity continue. In the meantime the provision of an extra douche massage table would ease the situation, but even this would call for an additional supply of hot water for the bath house. The urgency of the matter is evident, as with the present facilities douche massage has to be rationed for the patients to an extent which in the opinion of the Medical Staff is considerably below the standard of efficient treatment.

There is also urgent need of provision for intestinal lavage. This is an important part of the treatment of many cases of arthritis in which the source of the trouble may be intestinal toxæmia. In the past it has been necessary to send cases needing this treatment to the Harrogate Royal Baths, and although the treatments have been given there on generously reduced terms this arrangement has naturally led to a very restricted use of this valuable form of treatment. Our Honorary Gynaecologist has long urged the need of facilities for internal lavage for women patients with pelvic infections, and it is the unanimous opinion of the Medical Staff that both the above

forms of treatment should be made available in our Hospital regime, and that a Nurse specially trained for the purpose should be appointed to perform them.

Once more we would urge to both the subscribers and medical men the importance of cases of rheumatism being sent for treatment at as early a stage of the complaint as possible. The Hospital is not staffed for nursing bedfast patients and is not intended for those whose state of health renders them unfit for the baths and other physical treatments available here. But with these reservations the sooner cases come to us the better are the chances of complete cure. Many late cases are sent here with contractions and deformities requiring operative treatment such as can be given in an orthopaedic or general hospital, and the Medical Staff, whilst fully sympathising with these unfortunate sufferers, realise that they often occupy places in the hospital to the exclusion of others who could derive much more benefit from Spa treatment.

The Medical Staff are much gratified that the arrangements in connection with the establishment of a special rheumatic research centre are progressing satisfactorily.

We join the Board of Management in thanking Mr. Carter and Dr. Sinclair Miller for their efforts on behalf of the Research Fund and hope to see the whole-time Research Worker appointed at a very early date.

The Research Fund is administered quite independently of the Hospital Revenue, but we hope that as many of our subscribers as possible will see their way to contributing towards it.

During the past twelve months various new forms of treatment have been tried, and the work of our Resident Medical Officer (Dr. Shanson) in conjunction with Dr. Eastwood on the use of histamine will be published shortly.

The Honorary Medical Staff also joins the Board of Management in recording their regret on the retirement of our Matron, Miss Cort, on grounds of ill health. Miss Cort has served this Hospital longer than any member of the active Medical Staff and we realise fully to what an extent the comfort and well-being of our patients were due to her untiring efforts. She was a valued friend to both staff and patients and we wish her a speedy restoration to health in her well-earned retirement.

## CLINICAL LABORATORY.

The routine work of the Laboratory during the past year has increased enormously, compared with previous years, there being 4,615 specimens examined. The total number of patients referred for investigation was 737. The extent to which the Laboratory is used is an index of the service it provides, and it is a happy omen that its usefulness increases year by year. The necessity for accurate diagnosis in rheumatic diseases is beyond question, and in this the close collaboration of laboratory investigations and the clinical aspects of cases is essential.

Throughout the year a considerable amount of research work has been carried on, and it is confidently expected that the installation of the whole-time research worker in the Hospital will bring increased enthusiasm and opportunity for this side of the laboratory work. Many vital problems remain untouched because of the lack of necessary time.

Appended are the details of the specimens examined during the year.

Sixty new cases were referred. Of these (and of old cases returning) 72 complete pelvic examinations were made ; swabs for bacteriological report were taken in 42 cases ; and 76 consultations were held in addition to attendances for examination and treatment.

Much valuable aid both with diagnosis and treatment [of the pelvic cases is anticipated now that the X-Ray plant is in use.

The Cost of Endowing a Bed is  
£1,000.

---

The Hospital and Home have at the present time only three beds partly endowed out of a total of 150, and it is felt that many of our supporters could perpetuate the memory of relatives and friends in no better way than by endowing and naming a bed after them.
